

IntestiMax

Natural Ingredients Used Traditionally to Support a Healthy Intestinal Lining*

- Helps Strengthen & Support the Protective Intestinal Lining*
- Contains L-Glutamine, N-Acetyl D-Glucosamine, Gamma Oryzanol & Soothing Herbs
- Promotes Healthy Digestion & Nutrient Absorption*
- Promotes Intestinal Cell Health*
- Provides Powerful Antioxidant Support*
- No Fillers or Binders

IntestiMax is a natural L-glutamine supplement with N-acetyl D-glucosamine and soothing herbs to support the integrity and healthy function of the intestinal lining.* It also includes gamma oryzanol—a natural extract of rice bran oil, which has been shown to enforce antioxidant effects in the digestive tract.*

What is the Intestinal Lining?

The digestive tract consists of the mouth, esophagus, stomach and intestines. It serves as a place for food breakdown and nutrient absorption to take place. The intestinal lining is a thin mucosal membrane that lines the small and large intestines. This delicate lining is semipermeable; this means the membrane allows nutrients into the bloodstream and keeps toxins, pathogens, and undigested food out. When toxins enter the bloodstream, many health conditions may occur.

The Importance of a Healthy Intestinal Lining

The intestinal lining serves many functions. Three of the most critical are:

- 1) Helps to continue the digestion process after the food you consumed leaves the stomach.
- 2) Assists with the absorption of nutrients from food; this part of the digestion process occurs in the small intestine after food leaves the stomach.
- 3) Helps to prevent harmful bacteria and undigested food from entering the bloodstream.

The intestinal lining is like the skin, in that it sloughs off a layer of cells naturally every 3-5 days and produces new cells to keep the lining semipermeable. To keep new cells continually growing, the amino acid L-Glutamine is the primary fuel for this process. When functioning properly, the body converts L-glutamine into N-acetyl D-glucosamine, an amino sugar found in all tissues of the body. Much of the intestinal lining is composed of N-acetyl D-glucosamine, which helps hold the cells of the intestinal lining together.

IntestiMax - Capsules

Supplement Facts

Serving Size: 2 Capsules Servings per Container: 45

Amount per Serving %DV**		
L-Glutamine (free form)	835 mg	***
N-Acetyl D-Glucosamine	35 mg	***
Gamma Oryzanol	20 mg	***
Proprietary Herbal Blend	10 mg	
Cranesbill root (Geranium maculatum)		***
Ginger root (Zingiber officinale)		***
Marigold flower (Calendula officinalis)		***
Marshmallow root (Althaea officinalis)		***

** Percent Daily Values (DV) are based on a 2,000 calorie diet.
*** Daily Value not established

Other Ingredients: Vegetable capsule (vegetable fiber and water)
Directions: Take 2 capsules in the morning on an empty stomach. May be repeated in the evening. May take up to 12 capsules daily.

IntestiMax - Powder

Supplement Facts

Serving Size: 1 Level Scoop (5.4 gm) Servings per Container: About 30

Amount per Serving %DV**		
Calories	21	
Protein	5 g	10%
L-Glutamine (free form)	5,000 mg	***
N-Acetyl D-Glucosamine	200 mg	***
Gamma Oryzanol	125 mg	***
Proprietary Herbal Blend	75 mg	
Cranesbill root (Geranium maculatum)		***
Ginger root (Zingiber officinale)		***
Marigold flower (Calendula officinalis)		***
Marshmallow root (Althaea officinalis)		***

** Percent Daily Values (DV) are based on a 2,000 calorie diet.
*** Daily Value not established

Other Ingredients: None.
