### What is YeastMax?

YeastMax is an advanced internal yeast cleansing system formulated to help maintain a healthy balance of intestinal yeast.\*

A balanced digestive system contains enough probiotic bacteria to keep yeast levels in check. However, factors such as a high sugar diet, certain medications and stress can disrupt this natural balance.

The herbs and other natural compounds in YeastMax provide powerful support to assist with the detoxification of yeast, help balance flora in the intestine and support urinary tract health.\*

YeastMax combines powerful herbal extracts as well as undecylenic acid and caprylic acid to maintain a healthy balance of yeast in the digestive system.\*
