**Directions:** Children over 2 years of age: Chew 1 bear tablet daily.  
**WARNING:** Consult a physician before using this or any product if your child is taking medication or has a medical condition.

### Buddy Bear Fiber

Chewable Fiber Supplement for Children

- Natural fiber blend
- Supports healthy elimination\*
- Supports healthy blood sugar levels\*
- Delicious, natural Very Cherry flavor

Buddy Bear Fiber is a blend of natural acacia fiber and larch fiber.

Fiber provides numerous health benefits for growing children. It stimulates the movement of food through the intestines and helps ease elimination.\* Fiber can absorb toxins in the digestive tract and help "sweep" those toxins from the body.\*

In addition, fiber helps manage your child's hunger naturally and promotes less snacking throughout the day.\*

Brenda Watson recommends that children older than 2 years of age consume their age plus 5 in grams of fiber each day. *Example: 8 years old + 5 = 13 grams of fiber/day*
